Related Documents Issue

① Update plat database with new table

Related Documents

Unique I.D. Index	Currently being Indexed DIN	Currently being Indexed CTI	Related or Past DIN	Related or Past CTI
	1000		571	
		1050	571	

② Update Input Form

③ Update Edit Form

④ Create ~~Boolean~~ field off main tables to indicate related record. (YES/NO/UNKNOWN)

- When a new record gets indexed, both the new and the related document needs to be switched to "yes"

- ⑤ Create field in output list to indicate if there is a related document. If yes then it will hot link to a split screen list
