End: Wed 7/8/2009 2:00 PM

Recurrence: (none)

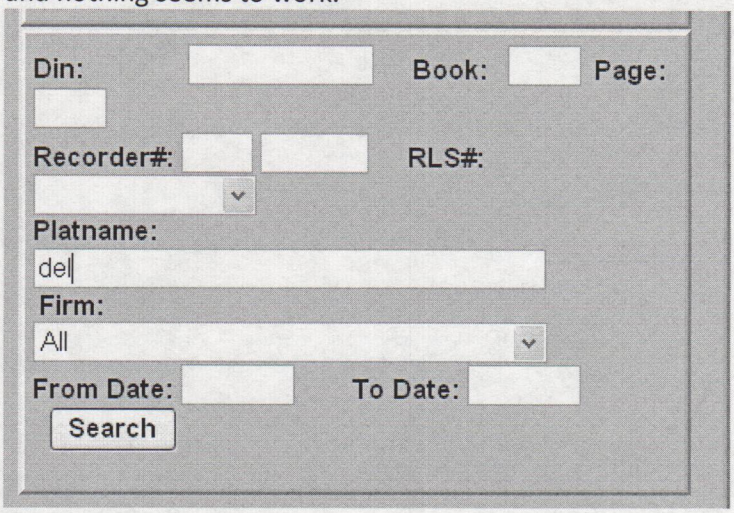
Meeting Status: Meeting organizer

All attended

Required Attendees: Brian Dalager - MCDOTX; Will Gardner - PWX; Mike McBride - PWX

AGENDA

1. My screen still looks like this. I hope others do not. I have tried adjusting my screen resolution to various setting and nothing seems to work.



2. If I type in "del" in the Plat Name get all records starting with del but I am looking for any plat that contains the word del, for instance "Rio Del Verde" din1857, it does not show up.
3. The original sort pairs the amended plats together however it is not as obvious as I think it should be. I have a coloring suggestion that may or may not be practical. Can you make the plat being corrected a lighter shade of orange.? Perhaps we can discuss this in more detail.
4. Adding a button at the top of the Result page, next to the "Search Again" button that states "Original Sort".

- Will to send new URL
- * ~~Call out~~ Send to outsiders to test
- Will to change color of amended/corrected recorders
- Possible launch next Tuesday.
