Phoenix, February 20, 1899.

"To the Board of Supervisors of Maricopa County, Arizona.

We respectfully report to your Hon. Body that we have examined the ground and estimated the Damages for a Public Road sixty-six feet wide (thirty-three feet on either side of Section line) to be located on section line between sections nine and sixteen, Township 1 North, Range 3 East S. R. B. & M.

The south thirty-three feet of said section nine is now being used as a Road and is unobstructed, therefore the owners of land in said section nine abutting on said proposed Public Road, in our judgement are not entitled to any damages as the benefits offset any damages they might claim. The greater proportion of the southhalf of said proposed Public Road, will cut into the field in said section sixteen, necessitating the removing of fences and the rebuilding of two ditches also the removal of all brush and trees and the taking of approximately two and one-half acres of land to give the required width of thirty-three feet.

We estimate the damages to the several tracts that abutt or front said Public Road on south side of said section line in said section sixteen the amount after the name of owner or lessee as given below.

Mrs, F. Wagner, frontage 1291 feet, 85/100 acres land and removing fence.	$50.00
Douglas, frontage 669 feet, 34/100 acres land and removing fence and rebuilding ditch	50.00
John Grijalva, frontage 667 feet, 26/100 acres land and removing fence and rebuilding ditch	50.00
A. L. Henshaw, frontage ½ mile, lacre land and removing fence	100.00
Total acreage 2,45/100 Total Amount	$250.00
