
NOTE: A concrete lined irrigation ditch follows the westerly property line of Parcels 1 & 2 from a point near the N.W. Cor. of Parcel No. 1 to angle point 12, except between angle points 3 & 5 and is located wholly on the westerly side of the property line.

NOTE

Traverse was retraced in Parcel 2 of property - no points found due to earth levelling. However alignment of E. edge of concrete ditch is found to have the same location relative to the retracement as that set by existing points found in parcel No. 1; thus verifying the direction of the most southerly course of Parcel No. 1.

Location (exaggerated for illustration) of West Line of Sec 31 according to 1956 Survey of Bartlett Engineering Co.

This is to certify that the findings shown hereon verifying the relocation of the S.W. cor. of Sec 31, have been reviewed by me and found correct.
June 20, 1960.
