**Recurrence:** (none)

**Meeting Status:** Meeting organizer

**Required Attendees:** Brian Dalager - MCDOTX; Will Gardner - PWX; Mike McBride - PWX

*All in attendance*

### Agenda

- Continue to address associated records in the Query Results Page.
- ~~Activate the MCR Book and Page to the search criteria.~~
- ~~Activate MCR Recorders number.~~
- Show the header as one scrolls down.

In the CTI, when you hit search again from the results screen, it should not require you to accept the disclaimer as you would have already accepted it the first time you entered the query screen.

ITC needs to provide a list of records from the Plat Index where:

1. the recorders number is not 11 chars.
2. where the RLS appears to be something different than the norm, such as "???? Or ?????".
3. The Firm Name is "unk", "unknown", "NA" or "No Name". There may be others.

~~Post Dir~~

- Plat name search use wild card in background.
