Required Attendees: Brian Dalager - MCDOTX; Will Gardner - PWX; Mike McBride - PWX

All attended

Agenda

- Continue to address associated records in the Query Results Page.
- Reformat the search fields at the bottom of the page for aesthetic purposes.
- Show the header as one scrolls down.
- *Corner Tie*
- In the CTI, when you hit search again from the results screen, it should not require you to accept the disclaimer as you would have already accepted it the first time you entered the query screen.
- Add "Include Non-PLSS Corners" radio button below the grid but above the Surveyor.
- ITC needs to provide a list of records from the Plat Index where:
 1. the recorders number is not 11 chars.
 2. where the RLS appears to be something different than the norm, such as ???? Or ??????
 3. The Firm Name is "unk", "unknown", "NA" or "No Name". There may be others.

No progress (will on
vac.)
except Alex W.
wrote program for
the first issue.
